

The AiroBlue G5-pro headset is light and stylishly designed with advanced DSP (Digital Signal Processing) features that improve sound quality in noisy environment and automatically changes volume settings in response to background noise. The caller's voice is processed to remove background noise and echo delivering clear voice reception. Also come with a flexible ear hook which flips smoothly from right to left and fits securely in either ear. Its discreet and ergonomic soft gel earpiece channels sound directly into your ear canal providing better reception and superior comfort.

FEATURES

- Digital Signal Processor (DSP): noise reduction, echo cancellation Pairing in both Headset Profile and Hands-Free Profile
