

MICRODIA's Digital Media Player Photo Frame is a digital picture frame that provides a simple way to display your precious memories anytime, anywhere directly from a memory card. The Digital Media Player Photo Frame has two built-in memory card readers compatible with most memory card formats, eliminating the need for a computer. Just insert your memory card in the appropriate slot and your pictures can be viewed instantly. The Digital Media Player Photo Frame also includes built-in speakers and supports MP3, MP4, Mpeg1, Mpeg2, Mpeg4, DivX and 3GP Playback. Its sleek design gives it a sophisticated look, perfect for home or office use. The frame's modern finish complements the clear, bright 8" TFT active matrix LCD flat display screen and control buttons are recessed and strategically positioned for ease of use, maintaining MICRODIA's sleek and stylish design.
