CHARGE IN BLAZING SPEED

By utilizing the newest USB PD, this cable offers charging speed up to 20V / 4.5A (90W). It takes less than 1.0 hour* to fully charge your MacBook. It also supports fast charging for USB-C devices whatever that is 5V, 9V or 20V.

* Depends on MacBook model and battery size

COMPACT YET STRONG

You will own a quick and hassle-free charging cable for your new MacBook. Plug or put out with one-hand operation becomes possible and it always stays where it should be with its two-way strong magnetic force. It is perfect on your lap, bed or workstation. The magnetic connector will disconnect when someone tripped the cable so your Macbook stays safe. This is the product you are looking for with double guarantee of safety and convenience.

PREMIUM AND DURABLE BUILD

ZNAPTIC Magnetic USB C Cable applies selective materials with exquisite workmanship, aluminum alloy shell, 6.6FT – 2M length braided nylon cord, and 24K gold plated, making the product more durable, wear-resisting, energy-saving, pressure-resisting and heat-resisting.

By applying an exclusive "L" shape design, farewell the conventional heavy and relatively inflexible cord. Help to save far more space and makes your table much neater.
